Family Spotlight...

Spencer Kerzman attends college in Brookings, SD at SDSU. His city league basketball team, sponsored by L. G. Everist, won the city championship!

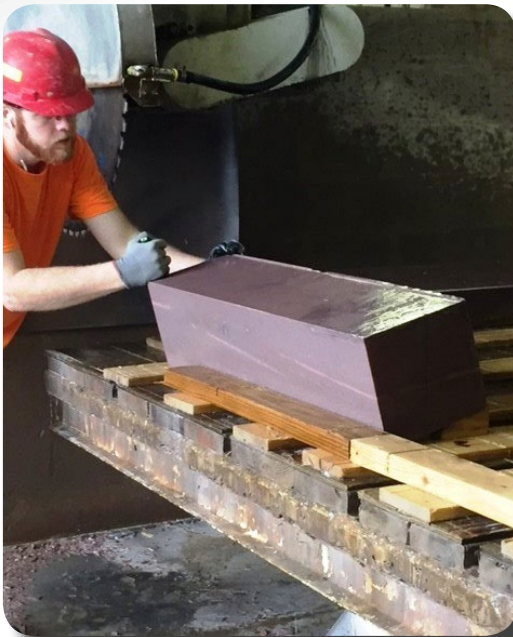

Spencer is son of Monte Kerzman, Sioux Falls

We Deliver Solutions!

Creating Value

The Quartzite found in Jasper and Dells was formed a billion years ago through a metamorphic process of pressure and heat. Our God rightfully takes the credit for this beautiful resource and we are blessed to have the ability to harvest its rugged beauty.

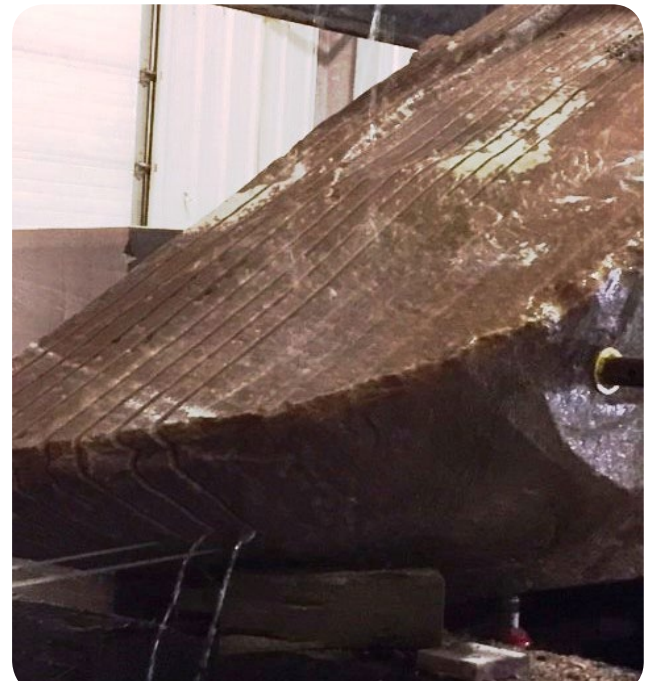

It is our job today to turn rocks from the ground into sellable useful products. Here are 2 of our craftsman at Jasper transforming the raw resource into a work of art.

Nathan Haak is eyeing an angle cut on a window sill ledge that is going to a renovated building in Sioux Falls.

We are proud to create value and thankful to all our employees who are adding value everyday!
Rob Everist

Pete Luehmann operates the flaming machine. This process flames the surface into a smooth marbled finish.

Wire Slicing...
cutting the hardest stone with diamonds

Happy Birthday!

Family Spotlight...

Spencer Kerzman asiste a la universidad en Brookings, SD en SDSU. Su equipo de baloncesto de la liga de la ciudad, patrocinado por L. Everist, ganó el campeonato de la ciudad!

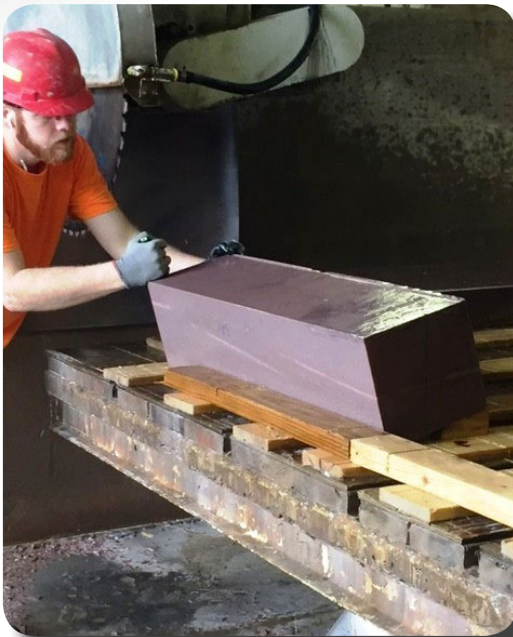

Spencer es hijo de Monte Kerzman, Sioux Falls

We Deliver Solutions!

Creando valor

El cuarcita encontrado en Jasper y Dells se formó hace un billón de años a través de un proceso metamórfico de presión y calor. Nuestro Dios legítimamente toma el crédito por este hermoso recurso y tenemos la bendición de tener la capacidad de cosechar su belleza escarpada.

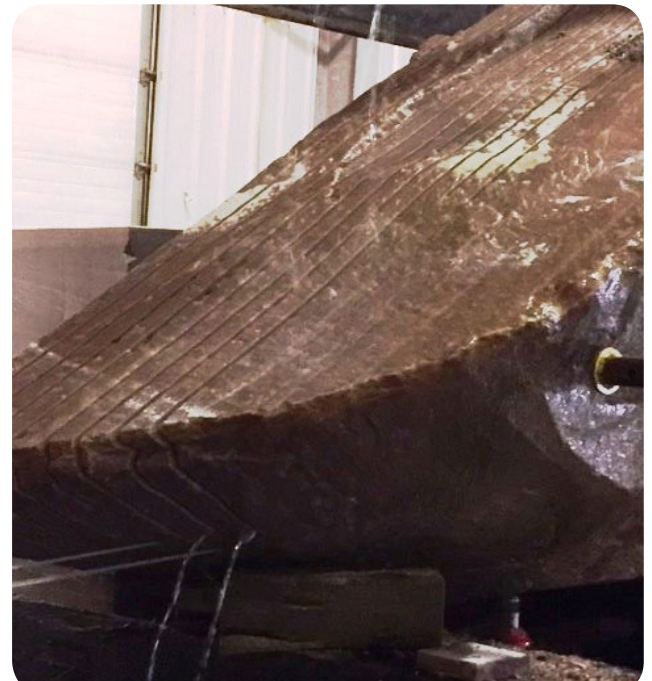

Hoy es nuestro trabajo convertir rocas del suelo en productos útiles vendibles. Aquí están 2 de nuestro artesano en Jasper que transforma el recurso crudo en una obra de arte.

Nathan Haak está mirando un ángulo cortado en una cornisa de la ventana que va a un edificio renovado en Sioux Falls.

Estamos orgullosos de crear valor y agradecido a todos nuestros empleados que están agregando valor todos los días!

Rob Everist

Pete Luehmann opera la máquina de llamas. Este proceso Superficie en un acabado liso de mármol.
