The LGE corporate office recently donated unused paper to a local day care in Sioux Falls, SD. They are putting it to good use! Future architects?

We Deliver Solutions!

Investing In The Future

Last week, L. G. Everist, Inc. invested in additional land near our Akron, IA sand and gravel operations. Okay, you might be thinking “oh well” or “so what”. There is a very unique reason for this transaction.

PLANNING FOR GROWTH, INVESTING IN THE FUTURE

LGE has a very extensive and deliberate approach to the sand & gravel business.

Our belief is that we will only be successful as a company if we have quality reserves to mine. To put it another way, we must replace every ton that goes across the scale or we will mine ourselves to extinction. Despite the fact that this property may not be mined for a couple of decades, we felt it was integral to insuring our long term success. This new asset now positions LGE for a long and bright future in Akron. This is what I call “Investing in the Future!!”

Many companies in our industry would choose to pass on a purchase such as this and let future generations or the next owners find ways to secure reserves. I am proud to work for such a strong, stable and forward thinking company – **Rock Solid!!** *Todd Schuver - Sioux Falls*

La oficina corporativa de LGE recientemente donó papel no utilizado a una guardería local en Sioux Falls, SD. Lo están poniendo a buen uso!

We Deliver Solutions!

Invertir en el futuro

La semana pasada, L. G. Everist, Inc. invirtió en terrenos adicionales cerca de nuestras operaciones de arena y grava en Akron, IA. Bien, usted puede ser que piense “oh bien” o “tan qué”. Hay una razón muy única para esta transacción.

PLANNING FOR GROWTH, INVESTING IN THE FUTURE

LGE tiene un enfoque muy extenso y deliberado Al negocio de la arena y de la grava.

Nuestra creencia es que sólo tendremos éxito como empresa si tenemos reservas de calidad para la mina. Para decirlo de otra manera, debemos reemplazar cada tonelada que va a través de la escala o nos mina a la extinción. A pesar de que esta propiedad no puede ser minada por un par de décadas, nos pareció que era integral para asegurar nuestro éxito a largo plazo. Este nuevo activo ahora coloca a LGE en un largo y brillante futuro en Akron. Esto es lo que yo llamo “¡Invertir en el Futuro !!”

Muchas compañías en nuestra industria elegirían pasar en una compra tal como esto y dejar las generaciones futuras o los dueños siguientes encontrar maneras de asegurar reservas. Estoy orgulloso de trabajar para una empresa tan fuerte, estable y con visión de futuro - **Rock Solid !!**
