Safety is no (*know*) Accident!

We usually like to celebrate the good things going on at L.G. Everist each Friday on these pages. Today I want to talk about safety - not only at work but on the drive in the morning and home every day. This activity is the most dangerous thing we do everyday. Car accidents are the leading cause of death in America for those of us between 1 and 54. Another sobering fact is that in the last 5 years fatal accidents has increased by 16%. How can this be? We are constantly reminded about safety and talk a good game but are we really practicing good safety habits? Distractions are dangerous; and the ever-present cell phone is the number one culprit. Please put the phone down and tell your kids and grandchildren the same. **Know** the facts and don't become a

This is the result of complacency and distraction.
Thankfully no one was injured.

- Wearing a seatbelt reduces the risk of death by 45% .
 - 2022 saw an average of 117 fatal accidents per day in the United States.
 - Speeding played a role in 29% of all traffic fatalities in 2021, killing an average of 33 people per day in the United States.
 - Deadly alcohol-related crashes are on the rise: The number of fatal crashes involving alcohol has increased by 32% since 2019, when there were 10,142 fatal car crashes where at least one driver was drunk.

**The Dakota Alliance U17G
Black soccer team took home
the USYS national
Championship on July 23rd in
Orlando Florida.**

*Lily Dahler daughter of Mike Dahler
(East Sioux) plays midfielder for the
team.*

After falling in the semi-finals last year they returned with some extra determination and brought home the championship. They defeated the Number 1 ranked team Solar SC out of Dallas area to claim the title. They came back from one goal down twice to win after overtime in penalty kicks. This is the first team from South Dakota to ever make it this far at this competition level. Congratulations for a job well done!

and one day ride passes** at the carnival for you
and your family.

*Gate passes for employee + spouse + children under 18

**One day ride passes for employee's children 13 & under only

Mark your calendars!

Is it worth the risk?

We often make choices or decisions that can affect our day-to-day life at work and home. We have to ask ourselves if it is worth the risk. Is it worth a finger, hand, eye, leg, arm, or life? When performing a task at work or home, take the time to complete the job correctly. Ask yourself do I have the knowledge and

training to complete this task? Do I have the right tools and equipment, and will I need help? One shortcut can change a life forever. So take the time to do it right because it is the right thing to do.
