# Railroad Operations

D & I Railroad is a wholly-owned subsidiary of L .G. Everist, Inc., owners of one of the largest privately-owned fleets of railroad equipment of any aggregate producer in North America.

The D & I operates from Dell Rapids, SD, home of L. G. Everist’s largest facility, to Sioux City, IA, where we operate a transload facility for the distribution of aggregates and rip-rap.

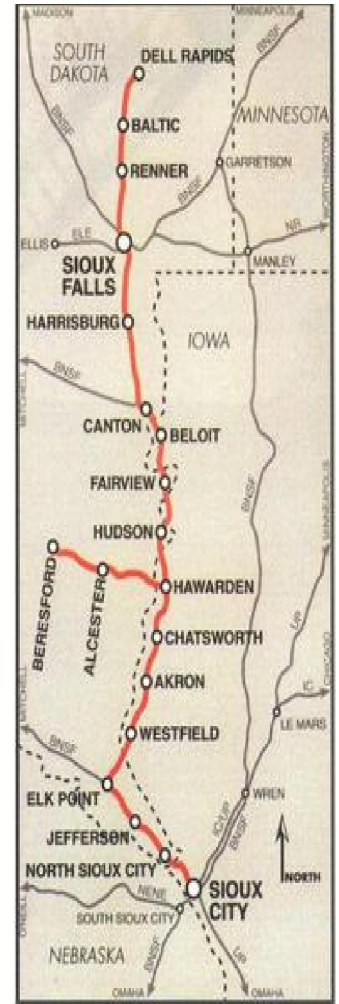

The D & I also operates via trackage rights over the BNSF Railway between Sioux Falls, SD and Canton, SD; between Elk Point, SD and Sioux City, IA; and operates a branch line from Hawarden, IA to Beresford, SD.

## Interchanges:

The D & I interchanges traffic with the BNSF Railway (“BNSF”), the Canadian National Railway (“CN”), and the Union Pacific Railroad (“UPRR”) in Sioux City, IA. In addition, the D & I also interchanges with the BNSF in Sioux Falls, SD.

[www.dirailroad.com](http://www.dirailroad.com)

The D & I teams with L. G. Everist, Inc. to accommodate their hauling needs. With extensive unit train experience and partnerships with the BNSF, CN and UP Railroads, the D & I can handle your transportation needs.

## The D & I transports:

- Ethanol
- Dried Distiller Grains (DDGs)
- Cement
- Corn Oil
- Fertilizer
- Plastic Pellets
