Cut Dimensional / Architectural Stone

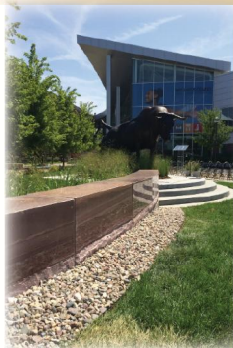

We Deliver Solutions!

We work closely with architects, landscape architects, contractors, masons, homeowners and designers to help them realize their vision. The Cut Stone Division of L. G. Everist, Inc. (formerly Jasper Stone Company) has been successful in creating a unique and collaborative experience that isn't typically found in the dimension stone industry. It's just another way we stand out above other natural stone companies.

Our stone cutters have a relentless drive for efficiency, an unyielding attention to detail, and a willingness to adapt to get things done. Our team approaches each custom job with a vision to see beyond boundaries, a desire to achieve what others say can't be done, and a commitment to create the masterpiece our customers expect.

Sioux Quartzite – The Foundation of the Dakota Territory.

Use this beautiful, natural stone from L. G. Everist, Inc. for your next project.
