At Ace Ready Mix, safety is our top priority when it comes to our Pump Trucks

By Jim Waddell / **Ace Ready Mix - Harrisburg**

Here at L. G. Everist, we are fortunate to have two Concrete Pump Trucks at our disposal. They are a 38m Schwing Pump and a 36m Z-Boom Puetzmeister Pump.

I have been working with Concrete Pumps for just about 33 years. They are a valuable tool for any project. They are also a superb vessel for Ace Ready Mix to generate more concrete sales. Having these pumps available for our customers allows us to tackle any project that we bid in the area.

These pumps are being put to work during the construction at the 9 Mile facility currently. Creating an efficient, man-hour saving, and most importantly safe

environment. Being able to have the pumps located safely away from the project allows us to protect not only the equipment but most crucially: people. We are very much looking forward to the completion of that project.

Having worked with them for so many years I have found the pumps have a fantastically diverse applicability during any concrete project. Whether it be footings, walls, foundations, and everything in-between, they can do it all.

When it is all said, and done these pumps help promote a safer work environment for not only our employees but also our customers and contractors.

Nostalgia Pictures~1999 - Pumping Ace Ready Mix Concrete for D & G Concrete at the intersection of 69th Street & Minnesota Avenue in Sioux Falls, 69th Street was a gravel road at this time.

Happy Birthday
